DATA ANALYSIS AND PROGRAM-SPECIFIC MEASUREMENTS

Your responses to the prompts for the data elements below should be for the entire program. If this APPW is for multiple degrees and/or certificates, then you MAY want to comment on each degree and/or certificate or discuss them holistically for the entire program being sure to highlight relevant trends for particular degrees and/or certificates if necessary. Responses in this document need only reference the most recent year's available data.

Agriculture Business has seen a slight decline after the substantial increase in the 2020-2021 academic year. Agriculture Mechanics shows an increase due to several new dual enrollment courses.

Agriculture Business fill rates are down. I believe this is due to Covid, as well as the offering of some newer courses that students are just beginning to discover.

The decline in Agriculture Business face-to-face course completion is significant. It is interesting to observe very little change in online course completion over the same

period. I am unsure how to explain this though I did observe a shift in classroom student engagement during and after Covid. I'm not sure that accounts for such a significant decline. I am concerned to see completion rates in the 60-63% range overall for both modalities. A conversation amongst Agriculture Business instructors is a next step to understand and improve these outcomes.

- G. Review the [Disaggregated Student Success](#) charts; include any charts that you will reference. Describe any departmental or pedagogical outcomes that have occurred as a result of programmatic discussion regarding the data presented.

The following are some questions you might want to consider:

- What specific groups are experiencing inequities? What patterns do you notice in the data? How have the equity gaps changed since the previous academic year?
- What professional opportunities are your program faculty participating in to address closing equity gaps?
- What strategies, policies and/or practices in your program have you implemented or what could be improved to better support students who experience equity gaps?
