Setting up a Mobile Authenticator App for Two Factor Authentication

Below are steps for downloading Google Authenticator to set up your Cuesta account with a Mobile Authenticator for login, but you may choose to use any mobile authenticator of your choice. To download and add your Cuesta account using the Google Authenticator:

- 1. Using your cell phone, go to your app store and search for **Google Authenticator**.
- 2. Select Get/Install/Download/Open next to Google Authenticator to add it to your phone.

3. While the App is installing, launch and login to myCuesta.

4. Use the top left menu to select the **Employee** view.

5. Find the Employee Applications card, then choose Account Settings.

6. From the Account Management Screen, select **Mobile Authenticator**, then select **Enable Mobile Authenticator**.

	Enabled On: (Nexes)	
2.000	New West Water Televis	

7. Use the dropdown options to select your **Phone Type**, then select **Continue**.

Mobile Authenticator Enrollment						
This step is optional. Please first download and install the Google Authenticator or PortalGuard Password Reset app from the appropriate app store for your phone.						
When ready, please choose your phone type to continue. You can skip this enrollment but you will be asked to enroll again during your next login.						
Phone Type iPhone	×.					
Continue	Cancel					

8. The screen will display a QR code. **Use your phone** to open the Google Authenticator app and select **Scan QR code**.

 Select Multi-factor Delivery Methods, then choose Change next to Website Login. Note: We also suggest that you change the delivery method for: Password change, Account Unlock and Password Reset.
